Reporting card for cross-field citation change (6 mandatory fields)

estimand

E1 edges/paper · E2 participation · E3 share (never combined)

support set

7 merged sources common to both directions (2019/21/24/25)

composition base year

declare one; report [Laspeyres … Paasche] when per-source signs mix

endpoints

2021→2024 (complete) · 2021→2025 (right-censored, always co-read)

dispersion

per-source sign table + exact pairwise width

three-state screen

comparable / partial / refused — with its measured miss rate

Declared readings shipped with this paper: EC forward E1 [−14.6%, +7.1%] across base years; EC reverse E1 +1.6%…+66.0% (all 7 sources); gap +5.16…+33.97 pp (18 cells); 12-pair atlas tiers 8 full / 10 E1 / 2 refused.
